Having promptly informed in a lengthy cablegram the Nicaraguan government that the American Secretary of State had last night presented him with his passport, Senor Felips Rodriguez, charge d'affaires of Nicaragua in Washington, is to-night patiently awaiting instructions from President Zelaya as to what course he is now to pursue.

Mr. Rodriguez would make no statement to-day, and had received no further information, he said, regarding the progress of affairs in Nicaragua. No marines have been landed at any point in Nicaragua. That statement was made to the Associated Press tonight by Brigedier-General Elliott, commanding the United States Marine Corps.

Corps.

"Neither are there any marines on board any of the United States war vessels now in Nicaraguan waters," said General Elliott, "The marines mearest to Nicaragua to-night are at Penersa".

"Have they been ordered to Nicara-a?" General Elliott was asked. "Not yet," replied the commander.

Mexico Neutral.

Mexico does not expect to be drawn into the Nicaraguan controversy, but will maintain a neutral attitude was the statement made by Senor Mariscal, minister of foreign relations, to-night. The action of the United States in asvering relations with the southern republic was not resented by Mexico, he said, although it came most expectedly at a time when his government was awaiting a reply to its suggested plans for peace.

The news of the breach between Ricaragua and the United States came as a surprise and created a great sensation here to-day. The situation was the chief topic of conversation on the greets, in the restaurants and at the clubs.

mr. Duke then took the stand and occupied it for about two hours. He explained the tables of figures in the petition of the Washington Southern, showing that during the last fiscal year it had lost \$2,070.43 in expenses over receipts, not including taxes or fixed charges; that with taxes added it had lost \$6,326.45, and that with fixed charges also included the loss was \$24,736.46. These figures, of course, both as to earnings and expenses, refer to intrastate traffic alone. Reset Not in Danger.

The Attorney-General, in his cross-cxamination, inquired why the calculation as to expenses of handling intrastate passengers had been made on the basis of the number carried, instead of on the mileage. He said that it did not look fair to charge the same expense against a passenger traveling five miles as against one traveling the entire length of the line, since the great majority of all passengers go over the whole road. The difference lay in the fact that while 29 per cent, of the passengers are intrastate, only 18 per cent of the revenue is from
